TO WHOMSOEVER IT MAY CONCERN

This is to certify that M/s. Membrane Hitec has supplied 10 Nos. of Ultra Filtration Membranes in October 2008, the capacity of the UF plant is 50 cum/hr for Recycling of Treated Effluent through Reverse Osmosis. This was supplied as Pretreatment to RO.

UF Particulars		
1	MOC	Modified Poyether Sulphone
2	Area	100 m ²
3	Dimension	400 mm Φ x 1530 mm L
4	MWCO	100 KD
5	Type	Multi bore

This plant was commissioned successfully in the month of March 2009 and has been performing satisfactorily till date.

These membranes were supplied to treat the treated effluent of polyester plant and to make the effluent fit to feed the RO plant for further reuse in the polyester plant. The Silt Density Index is less than 3 at the outlet of UF.

For Hi-Tech Aqua Systems
