**TO WHOMSOEVER IT MAY CONCERN**

This is to certify that the M/s Membrane Hitec - Chennai were given an order for fourteen numbers of 100 m<sup>2</sup>/16 inches dia., UF membranes of 10 KD for the removal of Colloidal Silica in the Boiler feed water for 2 x 300 MW power plant at Lanco Amarkantak Power Private Limited at Korba, Chhattisgarh. The UF membranes are performing satisfactorily till date. The plant was commissioned on 11/08/2009.

The colloidal silica was measured by ICP-OES method following APHA procedure, done at Chemfab Alkalis Ltd., Pondicherry, laboratory facilities.

The performance of the MHT-UF membranes was satisfactory in terms of both quality and quantity. The colloidal silica reduction has been observed to be at 99.98% during Performance Test Run.
